

Updates & Events

As you know, we at Groom make a habit of updating our clients on the latest legal developments in employee benefits. In addition to our shared interest in benefits issues, we share with our clients an interest in and a commitment to advancing and maintaining diversity within the legal profession, within the practice of law focused on employee benefits matters, and within Groom as a leading benefits law firm. The Groom Law Group Diversity Committee encourages our clients to learn about the variety of diversity events in which we have been involved by reading the updates below. If you have a diversity event you would like to discuss with us, please contact any of the members of the Groom Diversity Committee, or any Groom attorney.
