

From Our Clients and Others

"We rely on Groom to guide us through the thicket of pension and benefits laws and regulations. They've helped us move from defined benefit to defined contribution plans, revise our plans to comply with 409A and numerous other plan changes. The lawyers that we work with at Groom are extremely knowledgeable. Equally important, they are responsive, pragmatic and seem to genuinely care about our business. They are a pleasure to work with."

The Hershey Company

"Groom Law Group helped us navigate through numerous complex benefits and ERISA issues with a strong combination of expertise, cost-consciousness, flexibility, and immediate availability. They enabled us to confidently handle a transition to a new thrift plan provider and resolve many areas of concern and confusion. All of our offices--legal, human resources and financial--have come to think of them as not just our lawyers, but as part of our team."

Mark Freedman, *Assistant General Counsel*

Legal Services Corporation

"We have a close working relationship with the team so that it feels almost a part of our organization. These attorneys are forthcoming, available and conscientious about our account. We're always reassured working with Groom Law Group."

"Groom Law Group has seen it all. The team has a relationship with the IRS and has advised so many similar organizations that the attorneys just know what's going on, and how to deal with matters quickly."
