Christy Tinnes will participate in the ALI-ABA webinar, “Proposed HITECH Regulations: What Health Plans and Business Associates Should Know,” on August 17, 2010 from 12:30 PM – 2:00 PM EDT. The HITECH Act offers incentives to spur the development of electronic health records (EHRs) while at the same time mandates enhanced privacy and security protection for health care consumers. This webinar will provide a thorough discussion of the proposed regulations that implement the HITECH act, including a focus on the technical aspects of implementing electronic record-keeping.
