Federal Insurance Regulation

Groom principal and co-chair of the firm's [Health Services](#) group, [Lisa Campbell](#), was featured by *Bloomberg Law* in the article, "RFK Jr. Puts Health Insurers in Limbo by Dropping Covid-19 Shot," where she covered potential impacts on health plans after U.S. Health Secretary Robert F. Kennedy Jr.'s decision to remove the Covid-19 vaccine from the Center for Disease Control's ("CDC") list of mandatory vaccines.

*Bloomberg Law* reported that Campbell said that "health plans will likely wait to see whether ACIP adopts Kennedy's changes at its June meeting before altering coverage. But if a plan wanted to alter coverage beforehand, the legal argument gets a little 'murky.'"

"What authority does the HHS secretary have to circumvent the process and basically make this recommendation and approval outside of that committee process?" she said. The platform further reported that Campbell added that "that's not addressed in the Affordable Care Act."
