Elizabeth Dold was quoted in the article “IRS Updates Employee Plans Compliance Resolution System” in the October 6, 2016 edition of the CCH Federal Tax Weekly. The article discussed IRS guidance updating the Employee Plans Compliance Resolution System.

She told Wolters Kluwer “as anticipated, the updated guidance largely eliminates any references to the determination letter program, but does provide some helpful changes to audit sanctions for non-amender failures to help with ‘foot faults’ with required IRS amendments.”
