Groom Law Group, Chartered is pleased to share its newly launched [Investigations & Enforcement Resource Center](#). To help effectively manage the vigorous process when companies or individuals discover that they are subject of a Department of Labor, Internal Revenue Service, Pension Benefit Guaranty Corporation, Health and Human Services, Centers for Medicare & Medicaid Services, and other federal and state agency benefit plan-related audit, we have collected all of our resources in one place where we will be providing updates on an ongoing basis.

Based on the volume of work that we continue to do on behalf of clients to defend against agency actions, trends suggest that audits will continue to happen at a greater frequency, and to companies of all sizes. Therefore, it is our goal to equip our clients with a collection of resources to provide clear, straightforward insights into the process.
