SERVICES

Groom hosted an in-house mock trial for our attorneys to develop hands on familiarity with the laws, techniques, and skills needed inside the courtroom.

In this two day program, a full trial simulation was created and attorneys were able to practice their advocacy and courtroom skills, examine and cross-examine witnesses, and receive real time feedback from Groom's most experienced litigation and trial attorneys. The event provided numerous opportunities for professional growth, development, and learning in an information enriched setting.
