The Mental Health Parity and Addiction Equity Act of 2008 (“MHPAEA”) has increasingly been the focus of government enforcement activity and private plaintiff litigation. On Wednesday, October 26, 2022 at 2:00 – 3:00 p.m. ET, we will be hosting a webinar to discuss trends in MHPAEA enforcement and litigation, including, among other things:

- An overview of MHPAEA’s requirements, including the non-quantitative treatment limitation (“NQL”) rule
- The amendments to MHPAEA under the Consolidated Appropriations Act, 2021
- An overview of a typical MHPAEA lawsuit
- Strategies for defending MHPAEA claims
- The regulatory landscape moving forward
