On June 16, 2022, Groom hosted a webinar on the impact of state abortion restrictions on employers, insurers, and self-insured plans. Over the past year, numerous states have enacted new abortion restrictions, and the Supreme Court's highly anticipated decision in *Dobbs v. Jackson Women's Health Organization* results in immediately-effective restrictions in even more states. We discussed:

- State laws and the Dobbs decision
- ERISA preemption
- Plan/policy drafting strategies
- Travel benefits
- Mail order pharmacy and telemedicine
