- Federal Insurance Regulation
- State Insurance Regulation
- Privacy & Security

In this webinar on September 14, 2023, Groom's [Viv Hunter Turner](#) and [Christy Tinnes](#) gave an update on recent developments in state and federal privacy and security regulations and enforcement for health plans and insurers.

The webinar provided a high-level overview of the privacy and security developments that health plans should have on their radars right now, including the FTC's health breach notification Notice of Proposed Rulemaking, HHS' HIPAA Notice of Proposed Rulemaking on reproductive health care, DOL's cybersecurity guidance (which has been the subject to recent audit questions), FTC and HHS guidance on apps and tracking tools, security breach litigation, and where things stand on consumer state privacy laws and their applicability to employer health plans and insurance products (11 states and counting!). The speakers also discussed red flag issues health plans can watch out for and practical solutions health plans can implement.
