Groom principals [David Levine](#) and [Kevin Walsh](#) joined the Broadcast Retirement Network (“BRN”) for a segment covering SECURE 2.0.

In this televised piece, Levine and Walsh discussed key SECURE 2.0 provisions, including mandatory auto-enrollment, the increased RMD age, and student loan repayment matching, and highlighted those provisions with tight-turnaround requirements. They also covered SECURE’s Retirement Savings Lost and Found, which directs the Department of Labor to create a searchable missing participants database within two years of SECURE 2.0’s enactment.
