On May 24, 2022, Groom attorneys attended the New Jersey Law and Education Empowerment Program's ("NJ LEEP") 2022 Leadership in Diversity Gala. Once again, Groom was happy to lend its support for the occasion, a noteworthy event hosted annually by the program to bridge the gap for students and access to education.

NJ LEEP is a college access and success program serving low-income and first-generation middle school, high school, and college students and families in the greater Newark, New Jersey area. This year their annual Gala, at which 100% of proceeds benefit NJ LEEP programs and students, celebrated 15 years of student success.
