Groom principal and chair of the firm's [Retirement Services](#) group, [Michael Kreps](#), was featured by *PLANADVISER* in the article, "Congress Publishes SECURE 2.0 Corrections Draft Legislation," and by *PLANSPONSOR* in the article, "SECURE 2.0 Corrections Drafted by Congress." In both articles, Kreps assessed Congress' discussion draft for a projected bill that will make technical changes to SECURE 2.0.

Regarding the substance of the bill, Kreps said, "There was some hope from industry that there would be a more comprehensive 'fix-it' package, but there does not appear to be an appetite on Capitol Hill to relitigate substantive issues."
