#### Tax Reform: Comparison of House and Senate Versions of the Tax Cuts and Jobs Act (H.R. 1)

	Current Law	House Version (as passed by the House)	Senate Version (as passed by the Senate)
		Retirement Provisions	
Modification of Non- Discrimination Rules	If an employer closes a DB plan to new participants and maintains a DC plan for participants "closed out" of the DB plan, the DB plan will sometimes fail the nondiscrimination tests by virtue of the composition of the closed class. In that case, the	Provides relief for certain soft-frozen defined benefit for benefits, rights, and features nondiscrimination testing and 401(a)(26) minimum participation requirements for such plans. 	benefits, rights, and features provided under the DB plan may also fail the nondiscrimination tests.	Relief available to DC plans where make-whole contributions are provided to compensate participants when DB accruals are reduced or eliminated.	
	DB plans must also satisfy certain minimum participation requirements with respect to the number of employees receiving benefits under the plan.	Effective on the date of enactment (with an election to apply to plan years beginning after 2013). (Section 1506)	
	If an employer ceases all future accruals to a DB plan for all participants, the employer often will permit additional "make-whole" contributions to its DC plan in order to account for participants' anticipated DB plan benefits. However, DC plans will sometimes fail the nondiscrimination tests in this scenario.		
IRA Conversions/ Recharacterizations	Individuals who make a contribution to an IRA (traditional or Roth) may recharacterize the contribution as a contribution to the other type of IRA. Individuals may similarly recharacterize a conversion of a traditional IRA to a Roth IRA.	Repeals ability of individuals to recharacterize a contribution to one type of IRA (traditional or Roth) to the other type of IRA, and to recharacterize a conversion of a traditional IRA to a Roth IRA.	Same as House bill. (Section 13611)
		Effective for taxable years beginning after 2017. (Section 1501)

Special Relief for 2016 Disaster Victims	Distributions from DC plans, 403(b) plans, and IRAs are generally included in income for the year distributed. Additionally, such distributions received before age 59-½ are subject to a 10-percent early withdrawal tax.	None	Provides special relief for disaster victims resident in any area with respect to which a major disaster has been declared by the President under section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act during calendar year 2016. A qualified 2016 disaster distribution is a distribution from an eligible retirement plan on or after January 1, 2016 through December 31, 2017 to an individual whose principal place of abode at any time during 2016 was
			in a disaster area and sustained an economic loss by reason of events giving rise to a Presidential disaster declaration. A qualified 2016 disaster distribution of up to \$100,000 from a qualified retirement plan, section 403(b) plan or IRA is eligible for an exception to the 10-percent early withdrawal tax and may be recontributed to an eligible retirement plan (and be treated like a direct rollover) within 3 years of the
			distribution. Any income attributable to such a distribution will be included in income ratably over 3 years unless the taxpayer elects not to have that rule apply. Such a distribution is a permissible distribution from a qualified retirement plan, 403(b) plan or governmental 457(b) plan, regardless of whether there is a distributable event. Special plan amendment rules apply.
			Effective on the date of enactment. (Section 11029)
